The New Jersey State Botanical Garden started life as Skylands, an estate in the grand manner. It features a 44-room Tudor Revival granite mansion designed by John Russell Pope. Skylands has 96 acres of formal and naturalized gardens and is surrounded by over 1,000 acres of meadows and woodlands. Purchased by the State of New Jersey in 1966 and officially designated as the New Jersey State Botanical Garden in 1984, the gardens contain approximately 5,000 species and varieties of trees, shrubs and flowers.

For you, the Garden is an exciting and beautiful place to visit where you can enjoy each season's best. NJBG members enjoy special events, festivals, lectures, and rewarding educational opportunities for both city and country gardeners.

Your membership dollars help care for this living natural history museum and enhance the New Jersey State Botanical Garden. In return, you receive many great benefits, including special invitations and many different discounts.

Share in a fascinating range of events, tours, field trips, and special privileges ... Join today!

The Carriage House Visitor Center dates back to the late 1800s, and today offers services to visitors from near and far.

NJBG was founded in 1976 to help the State of New Jersey preserve and restore the gardens and Manor House, and to develop programs for public education and enjoyment throughout the year. Volunteers are always needed to help in the garden and with special projects.

NJBG is a 501(c)(3) non-profit corporation.
